Professional Summary

Full-Stack Software Developer with expertise in building scalable web applications using **FastAPI, Next.js, Node.js**. Specialized in **RAG, Langchain, RESTful API development, database optimization, and automation workflows**. Experienced in **Agile development environments**, delivering high-performance solutions that improve system efficiency and user experience. Proficient in modern DevOps practices including **CI/CD, Docker, and Git version control**.

Experience

Senslyze

June 2025 – Jan 2026

Associate Software Developer

Nagpur, India

- Implemented AI-driven feature for analysis and prediction using **fastAPI**, increasing application functionality and user engagement.
- Built AI-powered applications using **LangChain, RAG, and vector databases** for intelligent, context-aware systems.
- Engineered and deployed **full-stack web applications** using **Next.js, Node.js, and Express.js**.
- Built and integrated **RESTful APIs** with **ORM-based data access layers**, reducing database query response time.
- Utilized **Git/GitHub** for version control and implemented **CI/CD pipelines** using GitHub Actions.

Gray Corporates

March 2025 – April 2025

Junior SQL Developer

Nagpur, India

- Maintained database structures, tables, and schemas to ensure data integrity and performance.
- Created, modified, and optimized complex SQL queries to improve system efficiency.
- Extracted and analyzed data from databases to provide actionable reporting insights.
- Performed debugging and troubleshooting to identify and resolve database-related issues.

Education

GS College Of Commerce and Economics

May 2023 – May 2026

Bachelor of Commerce and Computer Applications (BCCA)

Major: Computer Programming and Applications

Technical Skills

Programming Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Technologies: FastAPI, Node.js, Express.js, REST APIs, ORM (Prisma)

Databases: PostgreSQL, MySQL, MongoDB

DevOps & Tools: Git, GitHub, Docker, CI/CD (GitHub Actions), Linux, Bash Scripting

Concepts: Full-Stack Development, Microservices Architecture, Performance Optimization, Automation, Workflow Management

Certifications

- Create Embeddings, Vector Search, and RAG with BigQuery
- Developing Back-End Applications with Node.js and Express
- Database Engineer Capstone
- Hands-on Introduction to Linux Commands and Shell Scripting
- Linux Commands and Shell Scripting Essentials V2
