

Mohit Sharma

Nagpur, Maharashtra, India

+91 8010382879 | msharma7744@gmail.com | [LinkedIn](#)

Professional Summary

Full-Stack Software Developer with expertise in building scalable web applications using **FastAPI, Next.js, Node.js**. Specialized in **RAG, Langchain, RESTful API development, database optimization, and automation workflows**. Experienced in **Agile development environments**, delivering high-performance solutions that improve system efficiency and user experience. Proficient in modern DevOps practices including **CI/CD, Docker, and Git version control**.

Experience

KC Overseas

May 2025 – Present

Associate Operations

Nagpur, India

- Processed student applications end-to-end, handling document verification, submissions, and status tracking through ATS/CRM systems.
- Coordinated with partners and internal teams to resolve documentation issues, update application records, and ensure compliance with university requirements.

Senslyze

June 2025 – Jan 2026

Associate Software Developer

Nagpur, India

- Built AI-powered applications using **LangChain, RAG, and vector databases** for intelligent, context-aware systems.
- Engineered and deployed **full-stack web applications** using **Next.js, Node.js, and Express.js**.
- Built and integrated **RESTful APIs** with **ORM-based data access layers**, reducing database query response time and use of **Git/GitHub** for version control and implemented **CI/CD pipelines** using GitHub Actions.

Gray Corporates

March 2025 – April 2025

Junior SQL Developer

Nagpur, India

- Managed database operations by maintaining schemas, optimizing SQL queries, analyzing data for reporting insights, and troubleshooting database-related issues to ensure data integrity and system performance.

Projects

Cloud Vento

- Built a full-stack AWS cost-monitoring platform that auto-discovers EC2, S3, RDS, and EBS resources, generates cost estimates and optimization recommendations, and features an AI powered chatbot for infrastructure insights.

Education

GS College Of Commerce and Economics

May 2023 – May 2026

Bachelor of Commerce and Computer Applications (BCCA)

Major: Computer Programming and Applications

Technical Skills

Programming Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Technologies: FastAPI, Node.js, Express.js, REST APIs, ORM (Prisma)

Databases: PostgreSQL, MySQL, MongoDB

DevOps & Tools: Git, GitHub, Docker, CI/CD (GitHub Actions), Linux, Bash Scripting

Concepts: Full-Stack Development, Microservices Architecture, Performance Optimization, Automation, Workflow Management

Certifications

- AWS Cloud Practitioner Essentials
- Create Embeddings, Vector Search, and RAG with BigQuery

- Developing Back-End Applications with Node.js and Express
- Database Engineer Capstone
- Hands-on Introduction to Linux Commands and Shell Scripting
- Linux Commands and Shell Scripting Essentials V2
